LE CHANT DES BALEINES

Objects teater and songs - For all from 3 years more

"Set within a delicate shadow-play world, The Song of the Whales invites audiences of all ages to follow the journey of a young girl uprooted from her home. Guided by her mother's voice, the only remaining memory of her past, she invites us to traverse her landscapes and relive her journey alongside her, tracing the path back to her origins. Each scene becomes a gateway for every viewer to explore their own emotions and imagination."

With a gentle, subtle touch, Histoire de Company explores the theme of exile : leaving and letting go, but also rediscovering, encountering, and being reborn.

Designed for young audiences yet meant for the whole family, this tender performance offers a moving experience that blends music, storytelling, and visual poetry. It is an invitation to listen to this song of hope and be soothed by the beauty of those who find a way to a new life elsewhere.

PRESS

"A journey filled with poetry and gentleness that captivated both children and parents. Blending song and shadow puppetry, this visually stunning and exquisitely delicate performance tells the story of a young girl uprooted from her home, wandering the roads in search of her mother's voice"
