

TECHNICAL RIDER

LE CHANT DES BALEINES THE SONG OF WHALES

Cie Histoire De / création 2017

We can be self-sustaining for lamps, video ...

We need a total dark space, quiet, with the enough dimensions and electric and sound matériel as follow :

Stage :

Total black out

5m large x 5,5m depth x 3m height

(If the dimension of the stage are differents please contact us, we may adapt)

Rake sitting

black dance mat on the ground

Public : For from 90 to 250 people

(depeding of seating organisation)

Age : Family audience from 4 years old (school performances from 4 to 10 years old)

Set up : 5h with 1 technician

Break down : 2h

If the stage is bigger than 5,5m please curtain be necessary to close the scenic space on side (we can supplied the curtains but we will need the foot and bar to hook its)

Electric plugs :

3 circuits de 16 Amp

Dimmer 24 channels

2 directs plugs back stage

4 cables de 10m, 20 cables de 5 m

(according the distance between stage and dimmer maybe less or more...)

10 Multi-socket

Sound : We prefer take the sound of the space

(if necessary we can have it too)

2 speakers with cables XLR connection

(if it's possible to have it adapted to the size of stage maybe it could be with a best quality – but we can have ours)

1 sound desk (6 lines)

List of the matériel supplied by the company

Lights :

1 computer for the regie

One graduated light for the public

One small frenel decoupe

Small Spot lights :

7 PAR 36

5 PAR 30

3 PAR 16

10 particular lamp

Vidéo :

Vidéoprojecteur

1 VGA câble (30 m) (back line stage to the Regie)

(if the distance is more than this we have to find a longer one, please contact us)

Scenery and curtains

- Black curtains – metal structure
- all the scenery.

All travel in a small van with the material and the personnel

The Song of Whales - Compagnie Histoire De Implantation
